<p>2. Purpose</p>	<p>The Education (School Premises) Regulations 1999 stipulate minimum standards for school premises. Schools and colleges are also covered by the Workplace (Health, Safety and Welfare) Regulations 1992, which outline provisions that must be made in relation to the work environment.</p> <p>Provisions that are covered by these regulations include: toilet facilities, fire alarms, staff rooms, weather protection, noise, lighting, heating, temperature, ventilation and water supply.</p> <p>iCollege gives due regard to the Regulations listed above.</p>															
<p>3. Roles and Responsibilities</p>	<p>All iCollege premises, are monitored, by the Headteacher (HT), School Business Manager (SBM) and the Chair of Governors. Day to day, management is by the team on each site is supported by the UA.</p> <p>iCollege appoints a H&S Governor who meets with the H&S Co Ord and visits each unit regularly.</p> <p>Observations/concerns are reported to the UA.</p> <p>Health & Safety</p> <p>The HT, Management Committee, H&S Co-ordinator, H&S governor and staff have a responsibility for the Health and Safety in relation to Premises Management. Roles and responsibilities are detailed in the iCollege Health and Safety Policy.</p> <p>Premises safety is everyone’s business, so if any person or learner has concerns they can report them to any member of the iCollege staff or governors.</p>

---------------------	---------------	-------------------------

Particular attention is paid to the following areas:

5.1. Water Supply

The site team ensures that the **iCollege** water supply meets the requirements of the Education (School Premises) Regulations 1999 by ensuring that the appropriate checks are carried out at appropriate intervals to ensure that:

- The school has a wholesome supply of water for domestic purposes including a supply of drinking water.
- WCs have an adequate supply of cold water and washbasins.
- Sinks and showers have an adequate supply of hot and cold water.
- The temperature of hot water supplies to showers and sinks meet the requirements laid down.

5.2. Drainage

The UA and H&S Co-Ord ensures that there is an adequate drainage system for hygienic purposes and the disposal of wastewater and surface water by carrying out regular visual checks and calling in drainage specialists should problems arise.

5.3. Security Arrangements

The UA and H&S Co-Ord, SBM and Management Committee ensures **iCollege** has adequate security arrangements for the grounds and buildings by ensuring that each building is securely locked and alarmed each night; that each building has a secure entrance with security arrangements as appropriate and; that the school's perimeters are secure.

The school's security arrangements are based on a risk assessment for the school and are regularly reviewed by the SLT, the UA and the H&S Co Ord, explicitly taking into account:

- the location of the school site
- the physical layout of the school site
- the movements needed around the site
- arrangements for receiving visitors
- staff/learner training in security

5.4. Lettings

Currently none of the units are let.

5.5. Resistance to the weather

The UA and H&S Co Ord, ensure that the **iCollege** buildings provide reasonable resistance to penetration by rain, snow, wind and moisture from the ground by carrying out regular visual checks. Any Issues will be reported to the SBM and reported to the relevant committee and addressed according to need.

5.6. Accessibility, Suitability and Maintenance Responsibilities

The UA, LTs and the H&S Co-Ord ensure there is sufficient access to premises so that emergency evacuations can be accomplished safely for all learners, including those with special needs, by ensuring that all exits are kept clear and unencumbered, and by carrying out regular checks. Concerns are reported to the SBM and Management Committee.

The UA, LTs and the H&S Co-Ord ensure that access to all **iCollege** sites allows all learners, including those with special needs, to enter and leave in safety and comfort by ensuring that entrances are well maintained and unencumbered and by arranging access to a ramp for wheelchair users and lifts are kept empty. Concerns are reported to the SBM and Management Committee.

The HT and SBM can give reasonable assurances that the premises have not been condemned by the Environmental Health Authority through reference to appropriate documentation.

The HT, SBM and SLT, will ensure that each unit has classrooms that are appropriate in size to allow effective teaching, having regard to the number, age and needs (including any special needs) of learners by carefully monitoring the number, age and needs of learner who will be using the classrooms and making any necessary adjustments in provision and arrangements.

Particular regard will be given to ensuring that the teacher is able to reach each learner in a classroom in Order to provide individual help and guidance.

The SBM, H&S lead, H&S Co Ord and each UA ensures that, in terms of the design and structure of the accommodation, no areas of the school compromise health or safety. Upstairs windows are fitted with stops or bars, as appropriate; there are high-level hand rails on stairs above an open stair well; an asbestos management programme is in place.

Each UA, LTs and the H&S Co Ord and the SBM have ensured that there are sufficient washrooms for staff and learners, including facilities for learners with special needs, taking account of the Education (School Premises) Regulations 1999 in that:

Staff responsible for overseeing catering requirements, ensure that where food is served, there are adequate facilities for its hygienic preparation, serving and consumption by making regular reports on the kitchen facilities on each site.

UA and staff ensure that classrooms and other parts of iCollege sites are maintained in a tidy, clean and hygienic state by meeting with the cleaning contractor and monitoring standards of cleaning.

The unit LT ensures that the sound insulation and acoustics allow effective teaching and communication by inviting teachers to inform them if problems arise as a results of deficiencies in this area.

The UA and H&S Co Ord ensure that the lighting, heating and ventilation in classrooms and other parts of the school are satisfactory in accordance with the Education (School Premises) Regulations 1999 in that:

- Each room or other space in the school has lighting appropriate to its normal use
- Each room or other space has a system of heating appropriate to its normal use
- Adequate measures are taken to prevent condensation and noxious fumes in kitchens and other rooms

This is done through a programme of monitoring and through systematic feedback from staff. If staff have concerns they inform the UA.

	<p>The UA, co Ordinate on-going maintenance work with iCollege caretaker and organises any programme of redecoration after submitting requests to the SBM for approval. Most of this work takes place when there are no learners at the units or during the school holiday periods.</p> <p>Consultation between the HT and with the SLT and SBM ensures that the furniture and fittings are appropriately designed for the age and needs (including any special needs) of all learners attending iCollege by responding to specific requests for appropriate furniture and fittings which are generated when they are required.</p> <p>The UA ensures that there is appropriate flooring in good condition by carrying out regular visual checks and implementing any necessary repairs/replacements.</p> <p>The UA, in consultation with the SBM, HT and unit LT ensure that there are appropriate arrangements for providing outside space for learners. The condition of all, outside areas are monitored and deficiencies addressed.</p> <p>The UA, in collaboration with the PE Subject Lead and staff, ensure through regular checks that any equipment used by staff outside on playing spaces is maintained in a safe condition to enable effective and appropriate use. This equipment will be maintained and checked by an external contractor by an annual visit and when need arises dependent on the need of the equipment. Any concerns are reported to the SLT.</p> <p>5.7. Cleaning and Maintenance</p> <p>'Relyon' is contracted to do the cleaning at all sites.</p> <p>Window cleaning is contracted out and this is carried out twice a year at each unit.</p> <p>iCollege employ a caretaker who works across all units which includes some grounds maintenance, tasks that the caretaker doesn't do are contracted out. This may include a contractor attending the sites to maintain external areas if necessary.</p>
<p>6. Training</p>	<p>The HT, SBM and SLT will ensure that all staff receive relevant training to ensure the effective use and safe operation of the site and equipment. Records of training will be maintained electronically on SIMS</p>
<p>7. Records/Log Books</p>	<p>The SBM, SLT, UA and H&S Co Ord will ensure that records of all checks that take place for the safe and effective operation of the site are maintained in each site in the Fire Logbook and Crest Compliance. These will be open to checking by the Management Committee as requested.</p>
<p>8. Associated policies</p>	<p>Accessibility Plan</p> <p>Critical Incidence Plan</p> <p>Health and Safety Policy</p> <p>Lockdown Procedures</p> <p>Medical Conditions Policies</p> <p>Visitors/Contractors Information</p>

Keeping Children Safe in Education

All staff at iCollege take seriously their responsibility to protect and safeguard the welfare of children and young people in their care; this includes protecting children from maltreatment; preventing impairment of children’s mental and physical health or development; ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and taking action to enable all children to have best outcomes
